

# FLORIDA'S MOST RELAXING PLACE.

NAVARRE BEACH, FL

*Navarre Beach*  
FLORIDA'S PANHANDLE

# Greetings, friend! And welcome to Florida's most relaxing place.

We invite you to venture to Florida's Panhandle, where you can slow down and discover the uncrowded, unspoiled and unhurried natural beauty and charm of Navarre Beach and the surrounding area. Inside this handy pocket guide you'll find a relaxing blend of waterfront beauty and backwoods adventure that begs to be explored on your next Florida vacation.

So read on. Plan your visit. Then discover everything that makes Navarre Beach Florida's Most Relaxing Place. On your own sweet time, of course.

A wide-angle photograph of a beach scene. In the foreground, a man and a woman are sitting on wooden lounge chairs, facing away from the camera towards the ocean. The man is wearing a white t-shirt, and the woman is wearing a light blue swimsuit and a large straw hat. A woven basket with a blue cloth is on the sand next to them. In the background, another couple is sitting on the sand, playing. The ocean is a vibrant blue, and the sky is a clear, bright blue with some light clouds.

UNSPOILED.

ELSE.**

# Navarre Beach is one of those places that you can't help but love.

Its uncrowded shores, soft sands and emerald waves have a soothing effect on your soul. Make yourself at home, and enjoy the sand, sun and surf.

## Navarre's White Quartz Sand

Tens of thousands of years ago, Navarre Beach was formed by minerals from the Appalachian Mountains. As centuries passed, all other minerals were worn down to dust and washed away, but resilient Quartz remained. Today, Navarre Beach is composed of White Quartz Sand, some of the most pristine sand in the world.

## Gulf Islands National Seashore

One of only ten National Seashores in the United States, the Gulf Islands National Seashore offers eight miles of undeveloped beachfront. See towering dunes, iridescent shells, nesting sea turtles, migratory birds and trails through this unique Gulf of Mexico habitat.

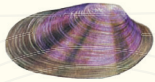

## Home is where your nest is.

Navarre Beach isn't just welcoming to humans—it's home to many nesting sea turtles. In fact, the Navarre Beach Sea Turtle Conservation Center is located in the Navarre Beach Marine Park.

### Save the Sea Turtles

If you see a turtle nest, be careful to not disturb it! If you dig anywhere or create holes in the sand, be sure to fill them in, and never leave trash or debris on the beach—only leave your footprints. Let these baby turtles rest up so they have the energy to hatch and make it to the ocean. Learn more about sea turtles and conservation at [GetRelaxing.com](https://www.getrelaxing.com).

## Navarre Artificial Reefs

For those who love snorkeling or diving, check out our beautiful marine life at the Deepwater “nearshore” Artificial Reefs of Navarre: East Sound Side Reef, West Sound Side Reef and Gulf Side Reef. The areas are all marked off to prevent motorized vessels, so you’re free to swim and explore the beautiful coral, turtles, urchins, jellyfish, stingray, octopuses, colorful fish and more!

## The Navarre Beach Pier

Go for a stroll on the longest fishing pier in Florida when you visit the Navarre Beach Pier. At 1,545 ft. long and 30 ft. above the water, the Navarre Beach Pier is an excellent choice for fishing, people-watching or just watching the emerald waves roll in.

## Navarre Beach Marine Park

This park connects three attractions above and below sea level: Navarre Beach Marine Science Station, Navarre Beach Sea Turtle Conservation Center, and the Navarre Beach Marine Sanctuary and Artificial Reefs. The Marine Science Station is typically a closed classroom, but does open to the public for events.
